

A letter of advice

Dear Chris,

I'm glad to see your letter but I feel sad about your problem with the small flat. I would like to give you some suggestions.

You said that you didn't have any privacy in your small flat and everyone can hear what you are saying. If I were you, I would decide to send a text message to my friends instead of talking on the phone. It is a better choice for you to communicate to your friends since you don't need to say anything meaning that people wouldn't hear what you are talking about. There are a variety of other choices that you could use, for example, online chatting and e-mail.

Then there is the noise problem that affected your study and made you do badly at school. I suggest you can study in the library instead of at home. If you don't have any library nearby, you can just find some coffee shop or food shop to study there. It is noisy but must be better than study at home.

After that, you were worried that you didn't have enough money to go out with your friends. I suggest you find a part-time so that you can earn some money for your own use. You just do the part-time job after school and on holidays, so that you don't need to drop out of school.

Finally, you should not think your schooldays are bad. You should be positive and try to enjoy your school life. Everything would be better if you think positively.

Keep trying and good luck. Hope my advice would help you solve those problems. Write soon.

Yours,  
Nicky
