Who is my favorite role model? A good question; my answer is my elder sister Kaman.

Kaman is a student and she is preparing for an exam which is called DSE. She is a good sister and daughter in our family. She is also a good student at school.

I think she is an optimistic and helpful girl. Every time that I have something that I don't know or understand, she helps me. And I know that she always helps her classmates, friends and teachers as well. So for that I am proud of her.

Kaman's motto is '*worrying does not take away tomorrow's troubles, it only takes away today's peace*'. I think that is why she is always happy and optimistic. She is also a hardworking girl. When she is free, she studies the dictionary and learns more vocabulary.

I can learn to be positive and not lazy from her. I hope that she can get high marks in DSE and study at University.
