<u>Picture Story (Unit 1)</u>

The story took place in the 22nd century. The cicadas were singing happily on the trees. The air was fresh. No one realised that something terrible would happen soon.

Paul not only ate snacks, but also used the desktop computer to watch music videos. He didn't sleep for three days and nights in order to watch his idol's live video. He refreshed himself with the coffee, so that he could have the spirit to watch the video.

His room was messy, so his mother asked, 'Have you tidied your room yet?' Paul ignored his mother. He was watching the music videos and didn't read his books.

Suddenly, the computer system crashed and went to an abnormal page, where the screen showed a message saying 'Do you want to be a superstar? We can help you to become a superstar.' Paul always dreamed that he could be a superstar, so he pressed the 'Yes' button. He found his hands and legs were disappearing, but at the same time appearing on the computer screen. He felt very disturbed because he did not know what he should do.

He was on the computer screen waiting for someone else to save him. At 8pm, his mother told him to clean the room. Poor Paul was calling for help. Suddenly, some people appeared on the screen. They told Paul, 'Welcome to the superstar world!' Paul wanted to go home, but the star of the world coaxed him to stay. Therefore, he tried to adapt to the new life there, but then he felt regretful very soon as it was not an easy job to stay there.

He wanted to find the way home, but with too little clues at all. When the residents in the superstar world realised that it was not a suitable place for him, they told him the way to go home. He had to obtain the jade of time to go home. Finally, with the other's help, he was able to go home.

After this experience, Paul stopped his bad habit of watching music videos too often. He spent more time getting along with his parents and friends. He had a harmonious relationship with them.
